MERN Stack Developer with hands-on experience building full-stack web applications. Skilled in React, Node.js, Express.js, REST APIs, JWT authentication, Responsive UI and MongoDB management. I'm eager to bring my problem-solving skills to a real-world development team as an intern and continuously adapt to new technologies.

Core Skills:

- **Frontend:** HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Next.js, Typescript (exploring).
- **Backend & Database:** Node.js, Express.js, MongoDB
- **Tools & Technologies:** Git & GitHub, REST APIs, JWT, Better Auth, Stripe Payment
- **Languages:** Bangla (Native), English (Professional)

Projects:

Full-Stack Crowdfunding Platform

- [Peyaraful Crowdfunding](#) is designed to let creators raise money for projects, causes, and products by collecting Contributions from Supporters. Supporters browse campaigns, contribute platform credits toward the ones they want to support, and creators withdraw the funds they raise once approved by the platform.
- Campaign Management, a Withdrawal System, Real-Time Notifications, and a Reporting System make the platform more user-friendly.
- Built with Typescript, Next.js, MongoDB, Express.js and Node.js .
- Server side repo: [peyaraful-crowdfunding-server](#)
Client side repo: [peyaraful-crowdfunding-client](#)

Full-Stack Property Rental Platform (MERN Stack)

- [Peyaraful Nest](#) is a modern property rental platform where property owners can add properties and tenants can browse, book, and manage rental requests. The platform includes secure authentication, role-based access control, property management, booking workflow, and stripe payment integration.
- Built with MongoDB, Express.js, React.js, and Node.js, fully responsive UI for mobile, tablet, and desktop, JWT authentication, role-based dashboards, property approval workflow, booking management, Stripe payment integration, and RESTful APIs.
- Server Repository: [peyaraful-nest-server-side repositories](#)
Client Repository: [peyaraful-nest-client-side repositories](#)

Full-Stack Cat Adoption Platform

- [Peyaraful Cat Adoption](#) is a free online platform that helps cats in Bangladesh find loving homes. It connects cat owners who can no longer keep their cats with people who want to adopt one.
- AI Cat Assistant, Smart Search, Success Stories makes the platform different from another. Built with Typescript, MongoDB, Express.js, Next.js, and Node.js with CRUD operations.
- Server side repo : [peyaraful-cat-adoption server side repo](#)
Client side repo : [peyaraful-cat-adoption client side repo](#)

Others Project: [Peyarafu-Farm](#), [Drive Nest](#)

Highlights:

- Built 5+ full-stack web applications.
- Exploring Typescript and problem solving skills
- Developed RESTful APIs with Express.js.
